SPEECH & LANGUAGE THERAPY • BABY SIGN LANGUAGE INSTRUCTION • FEEDING THERAPY

## SPEECH DEVELOPMENT NORMS: BOYS

Each number represents an age in years. Inside of each number are the speech sounds that 90% of boys that age should be able to correctly produce most of the time. To determine if your child's speech sounds are age appropriate, refer to his age as well as the speech sounds within his number.

Voiceless "th" is the quiet "th" sound as in "bath" or "think"  
Voiced "th" is the loud "th" sound as in "them" or "father"

Initial means the sound is at the beginning of the word  
Final means that the sound is at the end of the word.
